

Ephesians 1:15-23

Growing in Our Knowledge of God

- > Paul says in these verses that his desire is for believers to have wisdom and knowledge concerning what things in particular (vv. 17-19)? The hope of His (Christ's) calling, the riches of His inheritance, and the greatness of His power.
- > In what ways is God's power seen in Christ according to verses 20-21? He raised Him from the dead, had Him sit at His right hand, gave Him power over all things and a name above all names
- > Christ is called the head of the church. Explain the concept of "head" and "body" referred to in verses 22-23 (and why you think those particular terms are used). Christ = Head, church (us) = body. These terms give a picture of one unit, made up of many parts that work together.

Application

This passage emphasizes the importance of growing in our knowledge of God (accomplished by reading His Word!) and by applying what we learn to our lives.

- > Look back at your answer for the first question. Why is it important that we understand each of these things? Our hope gives us peace, the riches reveal God's greatness, knowing God's power gives us confidence in our Christian life.
- > As part of Christ's body, what role does understanding Christ's authority and power play in our lives? We can depend on Him, rely on Him for strength, listen to Him in all aspects of life.
- > How does the concept of being part of a body impact the way we relate to one another? Must know our place/role and do our part, be willing to serve each other and serve with each other.

Consider the significant role you have within the Body of Christ. In what ways are you contributing to the Body?
