

## Teen Topics Security (Part 2)

### **The Issue:**

In our last lesson, we looked at how many people turn to all sorts of insecure places to find security. The daily temptation to rely on things like popularity, possessions or achievements often leave us disappointed when we see how quickly these things can be lost. Our security must be found in a better place. Let's see how Scriptures points to Christ as being where true security can be found.

### **What does the Bible say?**

Notice how these verses describe the security offered by Christ:

- > **Ps. 55:22** - He takes our burdens and gives us strength.
- > **Ps. 112:6-7; Heb. 13:6** - He takes away our fears.
- > **Ps. 31:4-8** - He delivers us when in trouble/is trustworthy.
- > **Ps. 40:3** - He offers us true joy.
- > **Matt. 7:24-25** - He gives a solid foundation to live on.

### **What should I do?**

Are you secure or insecure? When we are insecure, it will be evident by how we may feel hopeless if we do not have certain things in our lives. When we are secure, we show a confidence, contentment, and trust in Christ that is unshaken by the constantly changing world around us. A solid relationship with Christ (grounded on the forgiveness of sins provided by grace through faith in His death, burial and resurrection) is the answer to the endless searching for security.
